

Peter Rabbit and his friends are lost, and he needs your help to find them and bring them home safely! Spin the spinner and find the characters!

This game includes 4 different game modes: Head-to-Head, Time Trial, Spot From A Distance, Spin the Wheel

HOW TO PLAY:

Head-to-Head

You will need 3 people to play this version.

There should be 1 person who has the important job of hiding all the characters around the house.

Then the 2 players must quickly search high and low to be the first person to find all, or as many of the characters as possible.

The player who finds them all and returns them home safely, or has the most when all characters are found, is the winner.

Remember, there are 5 characters to find.

Time Trial

For this game, you can have as many players as you like as you will take it turns to play.

You will also need a timer; you could use your phone for this.

To start, 1 person should hide all the characters around the house.

Then the timer should be started for the first player to search for the 5 characters as quickly as possible.

Whoever finds them all and returns them home safely in the speediest time, is the winner!

Spot From A Distance

You will need 2 players for this option.

Player 1 must close their eyes and stand in an agreed spot while player 2 hides the characters but they must be hidden within the room that player 1 is standing in.

Each of the hidden characters should have a small amount of them showing as the idea of this game is that when player 1 opens their eyes, they must not move from the spot that they are standing but must try to find the characters.

Once Peter Rabbit and his friends have been found and returned them home safely, swap so that player 2 must now try to find them all!

Spin the Character Wheel

You can have as many players as you like as you will take it turns to play.

First, 1 person must hide all the characters around the house.

Then, the first player must spin the wheel and find the character that the arrow lands on.

If there are more players, they can then take turns to spin the wheel to find the characters but if there is only one player they can keep spinning the wheel until all characters are found.

If you land on a character that has already been found, then take another spin!
