

Game 2 - The Cowboy

X1 Belt, X1 Inflatable hammer, X3 Rings

Player 2 positions themselves approximately 2 meters away from Player 1.

Using the 3 plastic rings the two players must work together to catch as many rings as possible onto the hammer. Player 1 is not allowed to touch the rings with their body but may move side to side to help catch the rings but must stay a minimum of 2 meters away from Player 2.

A point is awarded for every ring that is caught on their hammer, the team with the highest number of points after each team has had 2 attempts are the winners.

Game 3 - Cowboy Showdown

X2 Belts, X2 Inflatable hammers, X2 Rings, X4 Ring stands

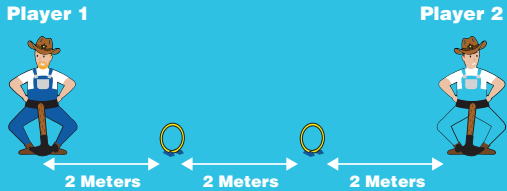

Place two rings on their stands, 2 meters apart, each player then will stand 2 meters from a ring with their back to the opposite player (as seen below).

This is an old-school showdown, cowboy vs cowboy.

When both players are set up and in position with their backs facing each other, a third player will need to shout “GO” loudly and clearly. Upon hearing the shout, the cowboys must spring into action and spin 180 degrees so they are now face-to-face with their opponent. The race is now on, both cowboys must swoop in and pick up your ring that is positioned 2 metres away from them. The winner is the first player you successfully pick up their ring and have it safely on their hammer. We recommend a best out of 3; winner stays on.

Rules

No hands are allowed on the hammer or the rings. If the ring is knocked over, it's game over for that round.

Game 1 - Cowboy Builders

X1 Belt, X1 Inflatable hammer, X3 Rings, X6 Ring stands

Place each ring onto 2 stands, then line them up in front of you as shown below.

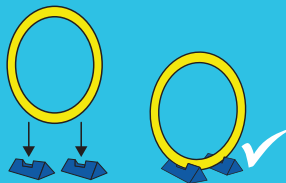

Decide on the distance between the starting point and the building site (the cowboy builders' box).

Now squat, hook and bring all the rings to the building site in the quickest time possible. However, you are only allowed to carry 1 ring at a time!

Set your phone timer to stopwatch and whoever completes the task of placing all 3 rings into the building site in the quickest time is the winner.

Add an extra challenge:

The player who has the belt and hammer must close their eyes while the other players hide the 3 rings around the room. When the timer starts the player must open their eyes and collect all the rings that are hidden around the room, placing them back to the building site in the fastest time possible.
